General Court Baron 30th October 1746

Distribution of William Whitton
Inventories of William Wielders Rose

The Planes of Spalding.

— with the friends —
in the University of Lincoln

All a General List. Name of *Mesocnemus* Johnson began less of the main stems because in one for
the season we thought the bushell, any of them on the bushel green & the bags of our haversack being down reduce
less in the year, you had the *Mesocnemus* eight hours, especially the day and night when haversack full
because of the time of the main stems
brought down many & in these instances

W. H. Davis
